Dear.....,

Birchmere has agreed with a Surrey Wildlife Trust proposal to inform them of all on common activities around the campsite. This is to protect the area which is an area of SSSI and has many sensitive areas.

You have a Birchmere camp planned and if you intend to use the common land for any activity please inform the Ranger of this at least three working days before the event. Also be aware that you will be asked for more details of the activity, where it will be undertaken and that you have a risk assessment for this purpose.

For information or requests regarding the use of the common land please contact James Herd.

07790 352697, james.herd@surreywt.org.uk

For all other Ranger matters please contact David Boddy:

07970 094416, david.boddy@surreywt.org.uk

Birchmere has created a generic risk assessment which is attached which you may find useful.

If you are not a Scout or Girlguiding group then you will need to show details of your public liability insurance cover and be prepared to pay a £26 office charge.

We are keen to work in tandem with our landlords, Surrey Wildlife Trust and support them in their wish to safeguard the flora and fauna of the surrounding common land.

Please contact to me, the campsite wardens or the Surrey Wildlife Trust Ranger, for more details if required.

With kind regards,

Richard Mackie

Chairman: Birchmere Campsite Management Committee
